

A photograph of a large industrial refinery or chemical plant at night. The scene is filled with complex machinery, including tall distillation columns, large storage tanks, and a dense network of pipes and walkways. The facility is illuminated by numerous lights, creating a bright contrast against the dark blue twilight sky. The overall impression is one of a busy, large-scale industrial operation.

YAMA

PRESSURE EQUIPMENT FOR PROCESS INDUSTRIES

FAST TRACK DELIVERY

| Our Strength

Yama is specialized in fast track delivery of S&T Heat Exchanger, Pressure Vessels, Columns and Reactors for process industries and plants.

Our goal is to provide a service to all end users who need precise and fast replacements.

Thanks to our lean company structure and a dedicated team, we are able to meet client's needs in terms of quality by reducing delivery time up to 40%.

| Our Services

In order to provide a complete service to our customer, Yama can support its own client with:

Measurements of the equipment to be replaced to ensure a complete interchangeability

Installation assistance

Mechanical re-engineering of the process equipment, if needed

Weekly updated production schedule
